Subject Index to Volume 12

(E) = Editorial; (LE) = Letters to Editor

Absorption
see also Vitamin B_{12} absorption
calcium and phosphorus, relationship between, 30
gastrointestinal, symposium on mechanisms of, 161–227
intestinal, effects of radiation on, 194
iron, 205
mucosal block theory in, 206
whole body counting technics in study of, 209
Abstracts
American Dietetic Association, 45th annual meeting, 255
American Society for Clinical Nutrition, 3rd annual meeting, 331
Adenosine triphosphate and vitamin B_{12} absorption, 190
Adipose tissue lipids and carbohydrate intake, 431
Adolescent girls, attitudes towards physical activity, food and family, 1
Air
expired, excretion of ascorbic acid through, 21
fluoride ion in, 459
Albumin values and urea nitrogen levels, correlation in kwashiorkor, 156
Alcohol ingestion, effect on urinary excretion of magnesium in normal man, 416
Alpha tocopherol therapy, plasma tocopherol levels in anemic children before and after, 377
American Dietetic Association, abstracts of 45th annual meeting, 255
American Society for Clinical Nutrition
abstracts of 3rd annual meeting, 331
amendments to Constitution, 327
program of 3rd annual meeting, 330
Amino acid metabolism and central nervous system, 287, 315
Amino acids
effect on tyrosine uptake, 289
uptake by brain, mechanisms involved, 287
Amino nitrogen levels in kwashiorkor before and after protein therapy, 154
γ-Aminobutyric acid
and central nervous system, 308
vitamin B_6 relationships in brain, 291
Aminopterin and vitamin B_{12} absorption, 172
Ammonia
excretion in malnourished infants, 236
levels in kwashiorkor before and after protein therapy, 154
Ammonium vanadyl tartrate
see Vanadium
Ancylostomiasis, zinc and iron deficiencies in dwarfism and hypogonadism without, 437
Anemia
megaloblastic
in kwashiorkor, 54
induced by special diet, 17
interrelationships of vitamin B_{12}, folic acid and ascorbic acid in, 130
vitamin B_{12} absorption in vegetarian with, 70
vitamin E responsive, in protein-calorie malnutrition, 374
vitamin levels in, 134
pernicious, vitamin B_{12} absorption in, 127
protein deficiency as cause in kwashiorkor, 450, 452
refractory sideroblastic
abnormalities of erythropoiesis in, 83
iron utilization in, 84
zinc and iron deficiencies in dwarfism and hypogonadism without, 437
Animals, fluoride ion in food from, 457
ASCN News, 330
Ascorbic acid
and folic acid coenzymes, 140
catabolism, new excretory pathway for, 21, 28
deficiency, effect on vitamin B_{12} absorption, 170
excretion, effect of dose size on, 163
folic acid and vitamin B_{12}, interrelationships in megaloblastic anemias, 130
levels in pica, 391
minimum requirements in man, 21
new values for body pool and minimal requirements of, 21
Atherosclerosis
and hyperlipidemia, serum triglyceride levels in, 251
fat tolerance curves in, 241
Attitudes of obese and nonobese adolescent girls, 1

B vitamins, effect of deficiencies on vitamin B_{12} absorption, 170
B_6 vitamers, concentration in tissues and tissue fluids, 295
Bile acids
and cholesterol, 216
effect of neomycin on excretion of, 422
formation and metabolism of, 214
role in digestion and absorption of lipids, 214
role in lipid metabolism, 217
Blood
see Erythrocytes
Body composition in chronic illness, 283

Body measurements in obese women, 231
Bone marrow aspirates in severe malnutrition, 445
Bowel, cytologic and pathologic changes induced by radiation, 195
Brain
  γ-aminobutyric acid-vitamin B_6 relationships in, 291
  consequences of catalytic mechanisms in, 288
  mechanisms involved in amino acid uptake by, 287
  L-tyrosine uptake by, 287
Book Reviews
  Burgess, A. and Dean, R. F. A. (ed.) Malnutrition and Food Habits, 75
  de Reuck, A. V. S. and O'Connor, M. (ed.) Ciba Foundation Symposium on Pulmonary Structure and Function, 75

Calcium
  and phosphorus absorption, relationship between, 30
  and phosphorus balance studies in infants, 346
  balance studies in infants fed various formulas, 346
  concentration of human milk and various formulas, 347
Cali-Harvard nutrition projects, 54, 445, 452
Carbohydrate
  dietary, role in lipid metabolism, 431
  digestion in small intestine, 220
  intake and liver and depot lipids, 431
  requirements in high calorie diet, 66
Catabolism of ascorbic acid in man, 21
Catecholamine metabolism and functions of central nervous system, 321
Catecholamines
  and diseases of the nervous system, 323
  biosynthesis of, 321
Cellular function and nutrition in central nervous system, 308
Central nervous system
  and amino acid metabolism, 287
  and cellular nutrition, 308
  congenital malformations of, 264
  diseases and catecholamines, 323
  functions and catecholamine metabolism, 321
Cerebellar encephalomalacia and tocopherol-deficient diets, 275
Cerebellum, changes in, due to tocopherol-deficient diets, 275
Children
  in Haiti, effect of lysine fortification of wheat bread fed to, 36
  in Indonesia, vitamin A-deficient, effect of protein and fat supplements on, 380
  liver and depot lipids in, on normal and high carbohydrate diets, 431
Cholesterol
  absorption and bile acids, 216
  and neomycin, 421
  correlation between weight changes and, 405
  effects of protein feeding on, 64
Cholesterol (*continued*)
  levels and weight reduction, 401
  seasonal variation in, 12
Choline deficiency, effect on vitamin B_{12} absorption, 177
Chorionic gonadotropin
  in treatment of obese women, 230
  and weight loss in obesity, 234
Chronic illness
  body composition in, 283
  dietary intake and, 281
  evaluation of nutritional status in, 278
Cobalamin, liver extract-bound, versus hydroxocobalamin versus cyanocobalamin, 145
Coconut oil supplements and vitamin A deficiency, 380
Cold exposure, effect on vitamin B_{12} absorption, 185
Congenital malformations of central nervous system, 264
Corn oil, effect of oral loads on lipid levels, 363
Creatinine excretion in malnutrition, 237
Cyanocobalamin
  in vitamin B_{12} deficiency, 149
  versus hydroxocobalamin retention versus liver extract-bound cobalamin, 145

Desoxypyridoxine
  effect of various dosage levels on polyunsaturated fatty acids, 363
  in pyridoxine and pantothenic acid deficiency, 410
  induced vitamin B_6 deficiency, effect on polyunsaturated fatty acid metabolism in man, 358
Diet
  for inducing folate deficiency in man, 17
  high calorie, 66
  low vitamin B_6, effect on urinary excretion of oxalic acid, 413
  menu, folate-deficient, 18
  palatable, for producing experimental folate deficiency in man, 17
  weight reduction, 402
Diet Therapy
  The high calorie diet, 66
Dietary carbohydrate, role in lipid metabolism, 431
Dietary intake and chronic illness, 281
Dietary protein and its effect on erythroid atrophy of kwashiorkor and marasmus, 445
Dietary requirements of vitamin B_{12}, 117
Dietetics and nutrition for medical students (E), 342
Diets
  normal and high carbohydrate, liver and depot lipids in children on, 431
  tocopherol-deficient, and cerebellar encephalomalacia, 275
Digestion, role of bile acids in, 214
2,4-Dinitrophenol and vitamin B_{12} absorption, 190
Dopamine, functions of, 326
Drugs, fluoride ion from, 459

Dwarfism
hemoglobin levels in, 440
hepatosplenomegaly in, 441
zinc and iron deficiencies in, without ancylostomiasis, schistosomiasis or anemia, 437

Eating, attitudes of obese and nonobese adolescent girls towards, 1, 9
Editorials
Education and function of the nutritionist, 339
Nutrition and dietetics for the medical student, 342
Some thoughts regarding the P:S ratio concept, 228
Education and function of the nutritionist (E), 339
Egyptian and Iranian subjects, comparative study of dwarfism and hypogonadism in, 437
Electrolytes, biochemical effects of alcohol ingestion on, 415–420
Encephalomalacia, cerebellar, and tocopherol-deficient diets, 275
Erythrocytes
iron uptake, 79
metabolic and nutritional factors affecting survival, 88
metabolism and thiamine deficiency, 107
survival
and vitamin deficiencies, relationship between, 95
and reticulocyte levels after tocopherol depletion, 99
values before and after vitamin E therapy, 376
Erythroid atrophy and protein intake, 445
Erythroid hypoplasia in malnutrition, 451
Erythropoiesis
abnormalities
in lead poisoning, 83
in refractory sideroblastic anemia, 84
in thalassemia, 84
iron kinetics in, 78, 85
iron utilization in, 77
Ethanol ingestion, urinary excretion of magnesium following, 415
Ethyl alcohol ingestion, effect on urinary excretion of magnesium in normal man, 416
Excretory pathway for exhaled ascorbic acid, re-examination of vitamin C requirements based on, 21

Family, attitudes of obese and nonobese adolescent girls towards, 1
Fat
diet, low, effect on serum cholesterol, 368
metabolism, role of vitamin B_6 in, 366
requirements in high calorie diet, 66
supplements in vitamin A deficiency, 380
tolerance curves in hyperlipidemia and atherosclerosis, 241
Fats, table, fatty acid content of (LE), 253
Fatty acids
content of margarines and other table fats (LE), 253
Fatty acids (*continued*)
in liver, effect of carbohydrate intake on, 436
metabolism and vitamin B_6, 358
of depot lipid, effect of carbohydrate intake on, 436
polyunsaturated, effect of various dosage levels of desoxypyridoxine on, 363
some thoughts regarding the P:S ratio concept (E), 228
Fecal coliform counts, effect of neomycin therapy on, 422
Feeding, ad libitum, effect on vitamin B_{12} absorption, 181
Ferrokinetic measurements of iron in erythropoiesis, 78
Fluoride ion
in food, 455
in air, 459
in food from animals (PN), 457
in food from vegetation, 455
in processed and cooked foods, 459
in water, 458
intake, effect of food habits on, 460
Folate activity of L. casei of various foods, 17
Folate deficiency, palatable diet for producing, 17
Folate-deficient diet menu, 18
Folic acid
ascorbic acid and vitamin B_{12}, interrelationships in megaloblastic anemias, 130
deficiency
effect on vitamin B_{12} absorption, 172
states, 132
therapy, effects on megaloblastic anemia in kwashiorkor, 56
Food
attitudes of obese and nonobese adolescent girls towards, 1
effect of excess, 279
fluoride in, 455
fluoride ion in, from vegetation, 455
folate activity of L. casei of, 17
from animals, fluoride ion in, 457
habits, effect on fluoride ion intake, 460
processed and cooked, fluoride ion in, 459
technology in chronic illness, 279
therapy, problems of, 280
unknown essential nutrients and vitamins in, 279

Gastrointestinal dysfunction in hyperglyceridemia, 251
Gastrointestinal tract changes following exposure to radiation, 201
Globin synthesis in iron utilization, 83
Glycerides, liver, and carbohydrate intake, 436
Growth failure, cause of, 441
Growth retardation
see Dwarfism

Haitian children, lysine fortification of wheat bread fed to, 36
Heme synthesis in iron utilization, 82

Hemoglobin
in Haitian children, effect of lysine fortification of wheat bread on, 36
levels in dwarfism and hypogonadism, 440
synthesis in iron utilization, 82
Hepatosplenomegaly in dwarfism and hypogonadism, 441
Hookworm infection in dwarfism and hypogonadism, 442
Hydroxocobalamin
in vitamin B_{12} deficiency, 149
versus cyanocobalamin retention versus liver extract-bound cobalamin, 145
Hypercholesteremia and hyperglyceridemia, comparative studies with triolein I^{131}, 250
Hyperglyceridemia
and hypercholesteremia, comparative studies with triolein I^{131}, 250
gastrointestinal dysfunction in, 251
Hyperlipidemia
and atherosclerosis, serum triglyceride levels in, 251
fat tolerance curves in, 241
Hypogonadism
and dwarfism, zinc and iron deficiencies in, without ancylostomiasis, schistosomiasis or anemia, 437
hepatosplenomegaly in, 441
Hypoplasia, erythroid, in malnutrition, 451

I^{131} uptake, thyroidal, and pyridoxine deficiency, 172
Indonesian children, vitamin A-deficient, effect of protein and fat supplements on, 380
Infants, malnourished Jamaican, partition of nitrogen in, 235
Intestine
absorption, effects of radiation on, 194
role in digestion, 225
Iranian and Egyptian subjects, comparative study of dwarfism and hypogonadism in, 437
Iron
absorption, 205
mucosal block theory in, 206
whole body counting technics in study of, 209
deficiency in dwarfism and hypogonadism without ancylostomiasis, schistosiomiasis or anemia, 437
ferrokinetic measurements of, 78
kinetics in erythropoiesis, 78, 85
transfer
by ropheocytosis, 79
by transferrin, 80
transport in plasma, 77
uptake by erythrocytes, 79
utilization
hemoglobin synthesis in, 82
in erythropoiesis, 77
in lead poisoning, 83
in refractory sideroblastic anemia, 84
in thalassemia, 84
Isoniazid and diet low in vitamin B_6, effect on urinary excretion of oxalic acid, 413

Jamaican infants, partition of nitrogen in, 235

Kwashiorkor
see also Malnutrition
correlation between urea nitrogen levels and plasma albumin, 156
erythroid atrophy of, 445
megaloblastic anemia in, 54
partition of urinary nitrogen in, treated with animal and vegetable proteins, 150
protein deficiency as cause of anemia, in, 450

Lactobacillus casei, microbiologic assay of folate-deficient diet with, 17
Lead poisoning
abnormalities of erythropoiesis in, 83
iron utilization in, 83

Pro-banthine and vitamin B_{12} absorption, 184
Protein
calorie malnutrition, vitamin E responsive megaloblastic anemia in, 374
deficiency
cause of anemia in kwashiorkor, 450
effect on red cell precursors, 445
severe, erythroid atrophy of, 445, 452
diet, low, effect on serum cholesterol, 368
dietary, effect on hemoglobin levels, 448, 452
feeding, effects on megaloblastic anemia in kwashiorkor, 56
requirements in high calorie diet, 66
supplements in vitamin A deficiency, 380
animal and vegetable, in treatment of urinary nitrogen partition in kwashiorkor, 150
Pyridoxine
see also Vitamin B_6
deficiency
and desoxypyridoxine, 410
effect on thryoid weight and I^{131} uptake, 172
effect on vitamin B_{12} absorption, 172
induced, effect on excretion of oxalic and xanthurenic acid in urine, 406
supplementation during pregnancy, 427
supplements in pregnancy, tryptophan load test in determining effects of, 428

Radiation
changes in gastrointestinal tract following exposure to, 201
effects on intestinal absorption, 194
Resin, prefeeding with, and vitamin B_{12} absorption, 188, 190
Respiratory tract
in catabolism of ascorbic acid, 28
new excretory pathway for ascorbic acid, 21
Reticulocyte levels and erythrocyte survival time after tocopherol depletion, 99
Riboflavin excretion, effect of dose size on, 163
Ropheocytosis, iron transfer by, 79

Salt intake and water requirements, 394
Schistosomiasis
zinc and iron deficiencies in dwarfism and hypogonadism without, 437
cause of dwarfism in Egyptians, 437
Scurvy, effect on vitamin B_{12} absorption, 174
Serum
carotene levels in vitamin A deficiency, 380
cholesterol
and obesity, 401
and neomycin, 421
and weight changes, correlation between, 405
effect of long-term, low fat, low protein diets on, 368
electrolytes, effect of protein feeding on, 64
triglyceride levels
and fat tolerance curves, 251
in hyperlipidemia and atherosclerosis, 251
vitamin A levels in vitamin-A deficient Indonesian children, 380
vitamin B_{12} levels in vitamin deficiencies, 171

Sex-related, variability of serum cholesterol concentration, 12
Similac, effect on calcium and phosphorus metabolism in infants, 347
Skim milk supplements and vitamin A deficiency, 380
Skinfold thickness in Haitian children, effect of lysine fortification of wheat bread on, 36
Small intestine
carbohydrate digestion in, 220
effects of radiation on, 195
Sodium chloride ingestion and water requirements, 394
Soybean diet, prefeeding with, and vitamin B_{12} absorption, 188, 190
Starvation studies and vitamin B_{12} absorption, 185, 190
Stature of Haitian children, effect of lysine fortification of wheat bread on, 36
Sterol and bile acid excretion, effect of neomycin on, 422
Streptococcus faecalis assay of folate-deficient diet, 17
Stress, effect on vitamin B_{12} absorption, 184
Sugar supplements in vitamin A deficiency, 380
Survival time of erythrocytes
after tocopherol depletion, 99
factors affecting, 88
Symposium on mechanisms of gastrointestinal absorption, 161–227
Absorption of iron, 205
Digestion of carbohydrates in small intestine, 220
Effect of deficiencies of certain B vitamins and ascorbic acid on absorption of vitamin B_{12}, 170
Effect of some physiologic factors on absorption of vitamin B_{12} in rats, 180
Effects of radiation on intestinal absorption, 194
Foreword, 161
Influence of bile acids on digestion and absorption of lipids, 214
Some factors affecting absorption of vitamins, 162
Symposium on nutritional and metabolic aspects of blood cell formation, 77–144
Evidence concerning the human requirements for vitamin B_{12}; use of whole body counter for determination of absorption of vitamin B_{12}, 117
Interrelationships of vitamin B_{12}, folic acid and ascorbic acid in megaloblastic anemias, 130
Some metabolic and nutritional factors affecting survival of erythrocytes, 88
Thiamine deficiency and erythrocyte metabolism, 107
Utilization of iron in erythropoiesis, 77
Symposium on nutrition and metabolism in mental disease
see L. B. Mendel Symposium

Thalassemia
abnormalities of erythropoiesis in, 83
iron utilization in, 84
Thiamine
deficiency and erythrocyte metabolism, 107
excretion, effect of dose size on, 163
Thyroid weight and I^{131} uptake, effect of pyridoxine deficiency on, 172
Tissues and tissue fluids, concentrations of B_6 vitamers in, 295
Tocopherol
cerebellar encephalomalacia produced by diets deficient in, 275
depletion, erythrocyte survival time and reticulocyte levels after, 99
Transferrin, iron transfer by, 80
Trappist monks, effect of long-term, low fat, low protein diets on serum cholesterol levels of, 368
Triglycerides
and fat tolerance curves, 251
effect of carbohydrate intake on, 436
Triolein I^{131}
studies in hyperlipidemia and atherosclerosis, 241
tests in lipemia, 242
Tryptophan load tests
in determining effects of pyridoxine supplements in pregnancy, 428
in induced pyridoxine and pantothenic acid deficiency, 410
L-Tyrosine uptake by brain, 287
Tyrosine uptake, effect of amino acids on, 289

Urea
excretion in malnourished Jamaican infants, 235
nitrogen levels in kwashiorkor before and after treatment with proteins, 153
Urinary excretion
of magnesium following ethanol ingestion, 415
of oxalic acid, effect of insoniazid and diet low in vitamin B_6 on, 413
of oxalic and xanthurenic acids, effect of induced pyridoxine and pantothenic acid deficiency on, 406
of xanthurenic acids, effects of pyridoxine supplements in pregnancy on, 429
Urine
ascorbic acid excretion in, 21
partition of nitrogen in, 235

Vanadium
effect of varying doses on lipids, 52
effect on lipids in man, 49
toxicity in man, 49
excretion in man, 49
Vegetarian with megaloblastic anemia, vitamin B_{12} absorption in, 70
Vitamin
absorption, factors affecting, 162
and mineral supplement in treatment of pica, 388
deficiencies and erythrocyte survival, relationship between, 95
levels in megaloblastic anemia, 134
Vitamin A
acetate supplements and vitamin A deficiency, 380
deficiency, protein and fat supplements in, 380

Vitamin B_6
see also Pyridoxine listings
and γ-aminobutyric acid relationships in brain, 291
and fatty acid metabolism, 358
deficiency
desoxypyridoxine-induced, effect on polyunsaturated fatty acid metabolism, 358
effect on lipid levels, 362
diet low in, effect on urinary excretion of oxalic acid, 413
effects of administration during prenatal period, 427
role in fat metabolism, 366
supplementation, effect on mellituria in pregnancy, 428
Vitamin B_{12}
absorption
and adenosine triphosphate, 190
and aminopterin, 173
effect of deficiencies of certain B vitamins and ascorbic acid on, 170
effect of physiologic factors on, 180
effect of prefeeding with resin and soybean diet, 188, 190
effects of starvation and semistarvation on, 185, 190
impairment by 2,4-dinitrophenol administration, 190
in megaloblastic anemia, 70
in pernicious anemia, 127
in vegetarian with megaloblastic anemia, 70
procedure for measurement of, 180
whole body counter for determination of, 117
deficiency
cyanocobalamin versus hydroxocobalamin versus liver extract cobalamin in therapy of, 145
states, 130
evidence concerning human requirement for, 117
folic acid and ascorbic acid, interrelationships in megaloblastic anemias, 130
Vitamin C
deficiency, effect on vitamin B_{12} absorption, 177
minimum requirements and allowances, 27
new excretory pathway of, 26
requirements of man re-examined, 21
Vitamin E
deficiency
and cerebellar encephalomalacia, 275
responsive megaloblastic anemia in infants with protein-calorie malnutrition, 374
therapy, erythrocyte values before and after, 376

Water
fluoride ion in, 458
requirements and salt intake, 394
Weight
change and serum cholesterol, correlation between, 405
loss
and chorionic gonadotropin, 234
in obesity, 231
of Haitian children, effect of lysine fortification of wheat bread on, 36
reduction and serum cholesterol levels, 401
Wheat bread, lysine fortification of, in Haiti, 36
Whole body counter for determination of vitamin B_{12} absorption, 117

Xanthurenic acid
effect of induced pyridoxine and pantothenic acid deficiency on urinary excretion of, 406
excretion and nitrogen retention, 408
levels in urine, effects of pyridoxine supplements in pregnancy on, 429

Zinc deficiency in dwarfism and hypogonadism without ancylostomiasis, schistosomiasis or anemia, 437
